BSG Wireless Deutsche Telekom Chooses BSG Wireless to Provide Hotspot Finder Template Service

(London, UK) – BSG Wireless, a subsidiary of Billing Services Group Limited ('BSG'), a leading provider of Wi-Fi solutions delivering proven and reliable managed services into the growing Wi-Fi ecosystem, today announced that it was chosen by Deutsche Telekom ('DT') to provide its Wi-Fi Hotspot Finder Template Service.

The BSG Wireless application Template Function allows DT to quickly customize the branding for browser services and applications to meet their customer needs, efficiently and cost effectively. The data management services will help DT manage roaming partner footprints and provide a single view for users. The applications use offline databases so they support users on the move. In addition, the applications work on all major device operating systems such as iOS, Android and Windows 7.

"DT is a global wireless leader, and we are delighted they have chosen BSG Wireless to provide the Hotspot Finder Template Service. We are always striving to provide innovative products to help our customers improve the quality of their services and grow revenues" said Atul Devani, CEO - BSG Wireless.

In addition to providing Wi-Fi roaming interconnection and data and financial clearing, BSG Wireless also has solutions to provide Wi-Fi interconnection clients, hotspot finders, directory services and location-aware and location-based services.
